Trees Atlanta is grateful to Don and Selene Morgan for all their support, and to the many others who send Tree Greetings. One of the primary objectives of Trees Atlanta is the education of the entire Atlanta community. All proceeds benefit our education programs, including more than 200 species of trees, shrubs, and perennials.

Whether you want to have trees delivered to your yard and socialize, or enjoy a casual stroll through the Atlanta Beltline to discover our urban forest, Trees Atlanta has a project for you! The Arboretum Walking Tour is a guided walk along the Atlanta Beltline’s Eastside Trail. It is an engaging introduction to Trees Atlanta’s urban forest and expands the understanding of native plant communities. The tour begins at 10:00 AM at the Roundhouse. It is held every Saturday morning. Cost is $5 per person. A donation of $15 will cover the cost of the Sheep Program. Please register online at www.treesatlanta.org.

Trees Atlanta works with Colleges and Universities to provide educational programs for all learning levels, bringing our mission of good stewardship of trees and other urban forest resources to college campuses. All proceeds benefit our education programs.

Trees Atlanta is gearing up for our second year of education in Atlanta Public Schools. Last year our youth program, called Urban Tree Trackers, educated more than 2,441 students.

Trees Atlanta Educates Adults

Youth Education

Trees Atlanta strongly believes in the importance of youth education and has developed educational programs for all learning levels, bringing our mission of good stewardship to our youth. We’re getting trees in the ground and building lifelong tree stewards.

Congratulations to Agnes Scott, GSU, and three more colleges for beginning the forward with becoming a Tree Campus USA school.

Trees Atlanta and Tree Campus USA have formed a unique partnership to educate students on issues related to urban forestry and to connect our community with experts in the urban forestry field. These talks feature a combination of experts and community members and are suitable for all levels of botanical knowledge.

Trees Atlanta works with K-12 Schools

All about Education

Youth Education

Trees Atlanta is proud to have worked on more than 100 tree planting projects (depending on the time of year). It’s fun! It’s free! It’s greener! Each Saturday morning from 9 AM – 12 Noon, Trees Atlanta has a volunteer opportunity that is open to all ages. On Saturday mornings from 9 AM – 12 Noon, Trees Atlanta has a volunteer opportunity that is open to all ages.

Trees Atlanta has planted and distributed 96,000 trees to our neighbors. We estimate 100 sheep eat 1 acre of invasives in 1 week. Greenspace, as part of Trees Atlanta’s mission to engage the community in caring for the urban forest.

What’s the Buzz about What’s the Buzz about the Atlanta Beltline Arboretum Tour? the Atlanta Beltline Arboretum Tour?

Trees Atlanta hired a herd of sheep from Ewe-Heartland, a forest restoration is still going strong! As you know, the Sheep Program provides a fun and educational experience for all ages.

Have Ewe Herd?? Second Year of the Sheep Program

Sheep Program Stats:

500 Acres of invasive species treated annually

Most popular plants eaten:

Roses & English ivy

Greenway Fun Fact

We estimate you saved 1 acre of invasion per week.

Volunteer Opportunities

Trees Atlanta is an educational and cultural organization in Atlanta, Georgia. It is dedicated to the preservation, care, and enhancement of the urban forest.

If you are interested in scheduling an event during this time period that will be greener, more inviting place to be, please email kate@treesatlanta.org for more details. Tickets are $75.

Join us for a spirited silent auction featuring rare and unusual plants, gift certificates, corporate gifts, and other items. Beer & Wine, Casual Attire, Local Fare. For more information, visit treesatlanta.org.

The Atlanta Beltline is a unique opportunity for your company. As the Atlanta Beltline is a plan to convert 22 miles of Atlanta’s historic railroad corridor into a multi-use public space with pedestrian walkways, urban parks, community green space, new mixed-use developments, and a world-class bike path, corporate and community groups, and individuals all over Atlanta joined forces to plant new trees along the Eastside Trail.

Since the Beltline Trail is part of the Atlanta Beltline Arboretum, the trees continue to稳步地 planted with grand gesture to Atlanta’s Urban Forestry Crew, scores of corporate and community groups, and individuals all over Atlanta. Trees Atlanta even partnered with the Lady Bird Johnson Wildflower Center on a research project that examined the use of the Atlanta Beltline as a source of habitat, food, and protection for birds, butterflies, and bees. It will also provide an opportunity for educational sessions attended by more than 3,500 adults and children.

The Beltline Trail is a living, breathing monument to the future of Atlanta’s urban forest and urban wildlife. The trees will continue to be used as bird highways. Where they can be placed, they will grow into new magnolia trees. The trees will be a symbol of Atlanta’s green future. These particular magnolias are beloved in Atlanta, and citizens continue to be amazed by the throng of people forming long lines to see them. These trees, along with the Cracker Stadium Magnolias, are the only trees Atlanta Kendeda Center remaining from the historic magnolias. With these cuttings, new magnolia trees can grow on the Atlanta Beltline Arboretum.
